

## Flexible Bus Services in BODS

September 2023

At the last PTIC meeting there was a presentation on the work on flexible bus services.

This work has now been completed and is published:

[https://www.pti.org.uk/flexible\\_bus\\_services\\_BODS](https://www.pti.org.uk/flexible_bus_services_BODS)

The official location of the TransXChange schema is yet to be updated.

Work on implementation within the BODS validator tool is now underway.

A date from when services using flexible zone stops will be rejected by BODS unless they use the flexible service profile has yet to be agreed but is likely to be early 2024.

Work is now underway with suppliers of data systems and consumers to ensure that the data can be understood and presented to the customer.
