for Transport

# Fares and Disruptions Updates

# Fares Updates

- BODS NeTEx profile v0.1 has been sent to key SMEs for consultation.
- Next steps will include incorporating amendments and suggestions, then working to complete the complex fares profile ahead of further consultation.

# Disruptions Updates

- New operator accounts feature has been released for the Create Transport Disruptions Data tool.
- Planned work includes integration with Street Manager to allow users to create disruptions from Street Manager roadworks data.
- Further work will be completed to visualise disruptions data on BODS.
