Issues Log

December 2026

Open Issues

Issue_104 - Supporting Block Number

An initial call with interested parties has occurred and the feedback and issues identified will be used to update the guidance supporting the TXC-PTI profile used by BODS at an appropriate time.

Issue_105 - Distance based Fares in BODS Fares NeTEx Profile

This remains open and will be addressed when the BODS Fare profile is reviewed.

Issue_106 – Updating Transport Authority

The list of LTAs has been agreed and an updated DRAFT version of TransXChange XSD and documentation was made available during March 2026.

Two versions were released which will when formalised be TransXChange v2.4.1 and v2.5.2, both Registration and General schemas.

Delivery dates for support in BODS and OTC will determine date Operators can start to supply data to BODS and OTC.

Expected to be closed in December 2026

Issue_107 – Stop Activity to support non-passenger stops

This adds new stop activity to support the recent introduction of 999 non-passenger stops.

It is included in the release of TransXChange v2.4.1 and v2.5.2, both Registration and General schemas.

Expected to be closed in December 2026
